NORMS & SAFETY

Fatboy products are compliant with the EU General product Safety Directive. In short, this means that Fatboy products are fit for the European market and are safe for their intended use. Some of our products are subject to specific regulations. For more details check fatboy.com or contact Fatboy directly.

About Fatboy

1998, the birth of a new way of relaxing. The Finnish designer Jukka Setälä created a beanbag unlike any other. Lounging on his own design, he was listening to the band Fatboy Slim. Started as an instant hit, grown into a lifestyle icon.

From potential to golden formula

From the Finnish Golla, the sale of the beanbags slowly started. Alex Bergman, owner of B&W Clocks, saw potential in the Finnish beanbag design. In 2002, he bought the importing rights for the Benelux and the Fatboy was introduced in the Netherlands.

In 2003, Alex even acquired the exclusive selling rights, which went above expectations. The owner of Harrods approached him with the words: "I hate beanbags, but I like your label." This was the moment. Comfort with a capital F was born.

An all-encompassing change

No folders, no outlets and no color samples for customers. Basic shades, like black, dark grey, silver grey and red colored the seating landscape. Time for a change, an immense movement in the area of lounging.

An image was carefully chosen. A marketing strategy was drawn up. Playfulness and 'fun' were combined with exclusive quality. The lounge trend conquered the Netherlands, to which Fatboy smartly responded. B&W Clocks was sold, Fatboy took over the world.

The unique Fatboy twist

Without a doubt our ultimate hero, but Fatboy is more than a beanbag. Our collection has expanded into a diverse range. Iconic, qualitative and durable. Available in a broad color palette and many materials. From lamps and carpets to side tables and a two-person hammock. Developed with one goal: escaping the daily routine with a big smile.

Recommendations

- Always close/put down the
parasol when not in use.
- Do not use or assemble
the parasol in heavy winds,
rain, thunderstorms or if
it's snowing. In these weather
conditions, we recommend
to fold down or disassemble
the parasol. Disassemble by
following the setup steps in
reverse.
