COLOUR OVERVIEW & PRICELIST PRATO (DECORATIVE) CUSHIONS & POUFFES

Prato is a textured linen look outdoor fabric with a soft touch. The polypropylene material is resistant to fungus and bacteria. It is very high UV-resistant and has excellent light fastness. Prato is non-absorbent and withstands water from swimming pools and seawater.

Maintenance advice: We advise using Borek Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Borek Fabric Protector.

In the pricelist you can see which cushions are standard available for each product. Other colours/fabrics are available to order for a surcharge.

(DECORATIVE)CUSHIONS PRATO

KS541	decorative cushion	50x50cm	available in various colours*	£ 169,-
KS543	decorative cushion	50x35cm	available in various colours*	£ 169,-
KS542	decorative cushion	60x60cm	charcoal/dune/meadow/banda	£ 199,-

* inquire about the stock position per colour.

COLOUR OVERVIEW & PRICELIST PRATO POUFFES

PRATO ALL WEATHER

The Prato fabrics used by Borek for all weather cushions & pouffes are particularly suitable for outdoor use. The fabrics are dyed completely and treated with a water and dirt repellent coating. These exclusive fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed specially for Borek. These materials make it possible for you to store your cushions outdoors throughout the season, but of course you don't have to do this. To protect your cushions from dirt, it is advisable to store your cushions in a clean, dry place. You can also use Borek protection covers.

The following lounge collections are delivered with all weather cushions as standard: Altea/Barrel/Bassano/Cadiz/Calcara/Chepri/Coimbra/Estoril/Faro/Hybrid/Key/Levante/ Lincoln/Milano/Morella/Murcia/Nido/Ovar/Ribbon/Santa Cruz/Sevilla/Softline/Tavira/Vigo/Viking/Vitoria

All other cushions are also available in all weather fabric for a surcharge.

COLOUR OVERVIEW & PRICELIST SUNBRELLA® DECORATIVE/ROLL CUSHIONS & POUFFES

SUNBRELLA® ALL WEATHER

The Sunbrella® fabrics used by Borek for all weather cushions & pouffes are particularly suitable for outdoor use. The fabrics are dyed completely and treated with a water and dirt repellent coating. These exclusive fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed specially for Borek. These materials make it possible for you to store your cushions outdoors throughout the season, but of course you don't have to do this. To protect your cushions from dirt, it is advisable to store your cushions in a clean, dry place. You can also use Borek protective covers.

The following lounge collections are delivered with all weather cushions as standard: Cadiz/Calcara/Lincoln/Majinto/Monsaraz/Murcia/Pasturo/Valldemossa/Viking/Vitoria.

All other cushions are also available in all weather fabric for a surcharge.

MATERIAL & MAINTENANCE

ROPE

ARDENZA BELT/ROPE

The Ardenza belt/rope is made from a thermoplastic synthetic rope. The material is coloured right through its core, it is waterproof, UV-resistant and antifungal. The Borek Ardenza belt/rope is resistant to temperature variations from -40 to +80 degrees Celsius.

MAINTENANCE ADVICE

Borek Ardenza belt/rope can be cleaned with Borek Fabric Cleaner. After cleaning it is possible to protect the material with Borek Fabric Protector.

POWDER COATED ALUMINIUM & POWDER COATED GALVANISED STEEL

Fluidized powder coating applied to the aluminium or galvanised steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. These materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE

To clean and maintain with Borek Multi Cleaner.

MATERIAL & MAINTENANCE BELT

CAMPANIA BELT

Campania acrylic belt is developed exclusive for Borek. The material is coloured right through its core, it is UV-resistant and colourfast. Borek Campania belt is protected with an unique environmentally friendly coating, is water repellent and antifungal.

MAINTENANCE ADVICE

To clean the Borek Campania belt, we recommend Borek Fabric Cleaner. After cleaning it is possible to protect the material with Borek Fabric Protector.

POWDER COATED ALUMINIUM & POWDER COATED GALVANISED STEEL

Fluidized powder coating applied to the aluminium or galvanised steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. These materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE

To clean and maintain with Borek Multi Cleaner.

MATERIAL & MAINTENANCE

TEAK

TEAK

Borek uses only mature carefully selected teakwood, all of it harvested in the accordance with our environmental policies. Teak wood comes from the *Tectona Grandis*. The wood's renowned durability is due to its high content of natural oils. The limited absorption of moisture protects the wood from warping and therefore gives the wood its enormous stability under the effect of UV-radiation, chlorine and sea water. It is possible that small cracks appear in the furniture but this is a natural working process of wood. Untreated teakwood will eventually fade to a greyish colour. The unique wood joint of some products may show widening due to weather influences. This is a natural process that might occur in this collection. Tables 220cm or longer may begin to sag.

RECLAIMED TEAK

Reclaimed teak is (semi) handmade out of old recycled teak wood. We got it by searching on various areas in Java. The reclaimed teak we use is what we got from old houses, buildings, bridges, boats, etcetera. Purchasing this product means accepting cracks and bursts, an irregular surface, a different wood structure, and the fact that wood works. The simplicity of nature itself. Teakwood is a close-grain and oil-rich hardwood and is especially stable in its recycled form. Therefore it is the ideal material to produce long-lasting outdoor furniture. The wood has been used before, so has some unique characteristics: we need to use patches in the wood and the wood contains materials that have entered (for example nails). These may cause rust, which may stain in the product itself or cause sedimentation on the floor. The furniture will legstially show stains during aging. This includes minor black spots that occur where nails or bolts were left in the furniture. This will not damage the quality of the wood itself. Wood is a natural product and is subject to external influences. Cracks and change of colour are physical facts to be expected. Each piece will age differently and each piece will develop its own unique character. Left outdoor, reclaimed teak will develop a grey patina. Tables/benches 220cm or longer may begin to sag.

MAINTENANCE ADVICE

We advise to clean teak a few times a year with Borek Teak Cleaner which cleans teak and restores its clean and sturdy appearance. Borek Teak Protector saturates teak to make it impenetrable for liquids and dirt. To maintain the natural, golden brown colour of teak and restore greyed teak to its natural colour, you have to use Borek Teak Sealer. Borek Teak Sealer is not recommended for Borek Venice tables and reclaimed teak (Cadiz, Sevilla, Tarifa & Parga).

MATERIAL & MAINTENANCE

ALUMINIUM

POWDER COATED ALUMINIUM & POWDER COATED STAINLESS STEEL

Fluidized powder coating applied to the aluminium or stainless steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. The materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE:

To clean and maintain with Borek Multi Cleaner.

DEKTON®

A unique material that looks and feels like natural stone but with advanced properties. Dekton® consists of sophisticated raw materials used in the production of glass, porcelanic and quartz surfaces. With a new production process, involving high temperatures and extreme pressure, the origin of natural stone is simulated. The result is a slab material that is ideally suited for outdoor furniture. Dekton® is UV, scratch, stain,- and heat resistant and resistant to ice and thawing. It is an innovative and durable product of top quality, carefully processed into a personalised custom design.

MAINTENANCE ADVICE

To clean with Borek Multi Cleaner.

PROTECTION COVERS

For the Vitoria double lounger is a suitable protective cover available. Protection covers can also be custom made.

MATERIAL & MAINTENANCE

PROTECTION COVERS

PROTECTION COVERS FURNITURE

Borek protection covers are UV-resistant and antifungal. They can be used to protect furniture frames throughout the year. Protection covers can also be tailor-made.

Material: pvc coated polyester fabric.

Colour: combination of grey and anthracite.

MAINTENANCE ADVICE

Please note: The use of the covers to protect furniture together with cushions is only recommended during the summer season.

Covers can be cleaned with a mild detergent and a soft sponge.
